

FACULTY

CITI Groups

Modules

Conducting Human Subject Research (Biomedical)

Responsible conduct of research	Required	see CITI	Biomedical Responsible Conduct of Research Course
Conflict of Interest	Required	see CITI	see CITI
Biomedical Research	Required	Group 1	see CITI
Information Privacy and Security	Required	see CITI	IPS for Clinician Scientist
Good Clinical Practice (GCP)	Compete: Only if research involves clinical trials	see CITI	Good Clinical Practice Course, US FDA Focus
Biosafety and Biosecurity	Complete: Only if human research involves laboratory work	Group 3	Translational Scientists and Laboratory Staff (if any)
Export Control	Complete: Only if research include international activities	Group 1	Researchers

Conducting Human Subject Research (Social and Behavioral)

Responsible Conduct of Research	Required	See CITI	Social and Behavioral Responsible Conduct of Research Course
Conflict of Interest	Required	See CITI	See CITI
Social/Behavioral Research	Required	Group 2	See CITI
Information Privacy and Security	Required	See CITI	IPS for Researchers
or Information Privacy and Security	Complete: Only if research include health records	see CITI	IPS for Clinician Scientist
Export Control	Complete: Only if research include international activities	Group 1	Researchers

Conducting Animal Research

Responsible Conduct of Research	Required	See CITI	See CITI
Conflict of Interest	Required	See CITI	See CITI
Laboratory Animal Research	Required	See CITI	Select all that apply
Biosafety and Biosecurity	Required	Group 3	Bench Researchers and Research Staff; Students in Biological Science
Information Privacy and Security	Required	See CITI	IPS for Researchers (only information security)
Export Control	Complete: Only if research include international activities	Group 1	Researchers
