

TRAINING REQUIREMENTS: FACULTY and STUDENT INVESTIGATORS, and RESEARCH STAFF

Modules Who CITI ID# Additional Details

Discipline-Specific Types of Responsible Conduct of Research (RCR) Modules

Face-To-Face RCR	Required for ALL graduate students		In-person attendance is mandatory
CITI RCR (Discipline specific)	Required: Biomedical (All)	95954	Biomedical Responsible Conduct of Research Course
	Required: Social and Behavioral (All)	95957	Social and Behavioral Responsible Conduct of Research Course
	Required: Physical Science (All)	95958	Physical Science Responsible Conduct of Research Course
	Required: Humanities (All)	95959	Humanities Responsible Conduct of Research Course
	Required: Engineering (All)	95955	Responsible Conduct of Research for Engineers
	Required: Administration (All)	95956	Responsible Conduct of Research for Administrators

A.) Regardless of Type of Research – **Everyone** Conducting Research Must Complete the Following Modules:

Responsible conduct of research	Required		Select appropriate one from the above Discipline-Specific RCR Module
Conflict of Interest (COI)	Required	95965	See CITI description
Export Control	Required	102877	See CITI description
Research Security	Required	5662794	See CITI description
Information Privacy and Security	Required	95950	IPS for Scientists
OR Information Privacy and Security	Required: If the research involves health care records	117690	IPS for Clinician Scientist

B1.) Conducting Human Subject Research (Biomedical) – **Additionally**, Complete the Following Modules:

Biomedical Research	Required	1289	See CITI description
Good Clinical Practice (GCP)	Compete: Only if research involves clinical trials	95943	Good Clinical Practice Course, US FDA Focus
Clinical Research Coordinator (CRC)	Complete: Only by research coordinators on clinical trials	147776	Clinical Research Coordinator's Training
Biosafety and Biosecurity	Complete: Only if research involves laboratory work	102895	Translational Scientists and Laboratory Staff (if any)

B2.) Conducting Human Subject Research (Social and Behavioral) – **Additionally**, Complete the Following Modules:

Social/Behavioral Research	Required	1290	See CITI description
Good Clinical Practice (GCP)	Compete: Only if research involves clinical trials	95943	Good Clinical Practice Course, US FDA Focus
Clinical Research Coordinator (CRC)	Complete: Only by research coordinators on clinical trials	147776	Clinical Research Coordinator's Training

B3.) Conducting Animal Research (IACUC-Related) – **Additionally**, Complete the Following Modules:

Animal Research Modules	Required		See CITI: Select ALL that apply
Biosafety and Biosecurity	Required	102894	Bench Researchers & Research Staff: Students in Biological Sciences

B4.) Conducting Only Laboratory Research (Biosafety-Related) – **Additionally**, Complete the Following Modules:

Biosafety and Biosecurity	Required	102894	Bench Researchers & Research Staff/Students in Biological Sciences
---------------------------	----------	--------	--

B5.) Conducting/Performing Radiation-Related Research/Health Care – **Additionally**, Complete the Following Modules:

Radiation Safety	Required	5662795	Faculty, Research Staff & Students; Clinicians and ancillary Staff
------------------	----------	---------	--
